Sample Customers

EPAM has been a trusted partner to SAP since 1997. For the many years EPAM has been actively engaged in SAP NetWeaver™ and xApps™ development working alongside SAP engineering teams from Walldorf, Germany, Palo Alto, California, and Bangalore, India. EPAM has documented more than 800,000 hours of development and integration experience with SAP NetWeaver™ and xApps™.

Today EPAM has one of the world's largest and most experienced SAP NetWeaver™ and SAP xApps™ teams.

SAP NetWeaver™ and xApps™

SAP NetWeaver™ integration and application platform is one of the most promising technologies for enterprise IT environment. The platform potential is multiplied by its ready-to-use business content preconfigured by SAP based on its 30 years of experience in developing and delivering enterprise applications for a variety of industries.

Extensions to the existing traditional SAP solutions or composite applications, as well as custom solutions that uniquely address client needs and deliver specific functionality, can be reliably developed and implemented by utilizing EPAM's knowledgeable resources located in Central and Eastern Europe and the US, who have substantial experience working on "next practices" applications for years.

EPAM Services:

- xApps development and implementation in Java
- SAP Enterprise Portal implementation
- Assistance in achieving "Certified for SAP NetWeaver" and "Powered by SAP NetWeaver" for 3rd party solutions
- Custom solutions for SAP NetWeaver
- Web Dynpro development
- CAF development
- Upgrade Services
- ABAP programming
- Integration services
- Local US, UK, German, and Russian Consulting and Project Management Teams
